Next Tuesday the drawing of the Louisiana lottery takes place.

Just received, a fresh lot of cranberry sauce, at Sydow & Kieck's.

Mrs. W. K. Meade has returned to her home. She had been visiting in this city for several days.

So far the horse race challenges to Phenix from Prescott and this city have been unnoticed by the capital city. Why is this?

Wolcott received a consignment of fresh fish from San Francisco yesterday. He will receive regular shipments during this winter.

A man named Corrales was plowing near Phenix, when the point of the plow struck a mesquite root, which threw one of the handles with great force against his stomach, killing him instantly.

Dr. Goodfellow, assisted by Drs. Darlington and Preston, performed a dangerous surgical operation upon Mrs. J. Curby yesterday. The operation was successful and the patient was resting easy last night.

Through an error yesterday's DAILY EPITAPH stated that Mr. Harris had been sued for a divorce by his wife on the grounds of non-support. It is Mr. Harris who has entered suit for abandonment. His wife is at present in California.

Reports from different portions of Southern Arizona show that the winter feed for stock will be fair. A comparatively small number of stock has been shipped this fall, owing to low prices and high rates of transportation over the S. P. The northern portion of the Territory has been more fortunate in having better rates over the A. & P. and the stockmen along that road have been able to ship their surplus stock at a fair price.

Death the Result.

Mrs. Cunningham, wife of a prominent ranchman on the San Pedro river, at Dudleyville, lost her life on Sunday, through fright on account of the Apache Indians who murdered the Gila county officers Saturday. The following particulars of her death are taken from a letter received this morning by Mrs. M. E. Putnam from a friend living near Mr. Lattin's ranch, where the death occurred.

"The Indians came up the river and crossed through Mr. Cunningham's pasture. Mr. Pete Young and Johnny Brannaman struck the trail. About that time 30 or 40 soldiers and 300 scouts came on the trail. Mrs. Cunningham became so excited she ran down to Mr. Lattin's to tell the people there. Mr. Lattin being in Tucson, she ran fast, I suppose, and from fright died a few moments after getting in the house."—Citizen.

From a letter received by the DAILY EPITAPH yesterday from Bisbee we learn that the draft of men in the Copper Queen did not occur on the first of this month but it is rumored that it will take place on the first of next month. Times are very dull in that camp notwithstanding several hundred men are at work, and the company store does nearly all the business. Hugh Brophy was loading with a loaded gun a few days ago and the usual result followed—a bullet through his hand. He will soon be well enough to repeat the experiment. The temperature has been rather rigid the past few days and a light fall of snow occurred one night recently.

Numerous posters around town are evidence that there will be an acrobatic performance at the skating rink to-night. The troupe is direct from the City of Mexico and is well recommended. The clown speaks good English and besides gymnastic feats a farce will be rendered during the evening. Two ladies accompany the troupe and are said to be first-class gymnasts and dancers. The entertainment will commence at 8 o'clock.

Base ball doesn't seem to enthuse very much at present. There is some talk of having a game on Thanksgiving Day with some outside club but arrangements have not yet been completed. If Tucson would come over we would have a very interesting game and if Phenix—but, phenix! Phenix evidently knows when she is well off and is afraid to cross bats with us on the strength of her local nine.

The Tombstone boys aren't so mad after all. One of them sent up to O. W. Peters & Co. a few days ago for some wedding night shirts and a lot of matrimonial handkerchiefs. The sender is supposed to be the one who fell so thoroughly in love with a Phenix belle.—Phenix Herald.

There are whispers of a big gold discovery thirty miles west of Tucson. The lead is on the open mesa and shows on the surface of the plain for a distance of about 2,000 feet, and the entire country surrounding it is a level plain. The lead is said to be a monster in size and full of free gold.—Star.

A. S. Haskell came in from his ranch last evening with a lot of choice apples of the "Ben Davis" variety, three of which weighed a trifle over three pounds. Twenty-seven delivered at Jerome weighed twenty-five pounds. Who says Arizona can't raise apples? Journal-Miner.

If you want to get fresh telegraphic (no grapevine) news, read the EPITAPH.

The Can Can restaurant has the finest varieties of fish fresh every day.

Thanksgiving Proclamation.

The President has issued the following proclamation.

A highly favored people, mindful of their dependence on the bounty of Divine Providence, should seek fitting occasion to testify gratitude and ascribe praise to Him who is the author of their many blessings. It behooves us, then, to look back with thankful hearts over the past year and bless God for his infinite mercy in vouchsafing to our land enduring peace to our people, freedom from pestilence and famine to our husbandmen, and abundant harvest, and to them that labor a recompense for their toil.

Now, therefore, I, Benjamin Harrison, President of the United States of America, do earnestly recommend that Thursday, the 28th day of the present month of November, be set apart as a day of national thanksgiving and prayer, and that the people of our country, ceasing from their cares and labors of their working day, shall assemble in their respective places of worship and give thanks to God, who has prospered us on our way and made ours the path of peace, beseeching him to bless the day to our present and future good, making it truly one of thanksgiving for each reunited home circle, and for the nation at large.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this first day of November, in the year of our Lord one thousand eight hundred and eighty-nine, and the independence of the United States the one hundred and fourteenth.

By the President.

BENJAMIN HARRISON.

JAMES G. BLAINE, Secretary of State.

For the last fifteen or twenty years travelers have occasionally brought specimens of a very remarkable amber from some locality in southern Mexico. The only information gained concerning it is brought to the coast by natives, who say that it occurs in the interior so plentifully that it is used by them in making fires. The color of this amber is a rich golden yellow, and when viewed in different positions it exhibits a wonderful fluorescence, similar to that of uraninite, which it also resembles in color. A recent specimen is even more beautiful than the famous so-called opalescent or green amber found in Catania. This material would be extremely valuable for use in the arts.—Ex.

A Hale Old Man.

A hale old man, Mr. Jas. Wilson of Allens Springs, Ill., who is over sixty years of age, says: "I have in my time tried a great many medicines, some of excellent quality; but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhea Remedy. It is truly a wonderful medicine." For sale by H. J. Peto.

From Chihuahua.

Colonel Zubrickie returned yesterday morning from Chihuahua. The train did not arrive until 7 o'clock a. m., owing to a delay on the G. H. & S. A. The Colonel says that Chihuahua is the liveliest and most progressive city in Mexico of its size. There are 2,000 Americans in the state and mining and other enterprises are promising. There is a splendid iron foundry there capable of doing all necessary work in repairing all machinery. The monument to Hidalgo has recently been dedicated with great ceremony. It is an artistic work. The prospects of Chihuahua look bright. The Colonel will leave in a few days for San Francisco.—Star.

A party of Colorado mining men have been examining the Harqua Hadas and secured bonds on several properties. They are also desirous of purchasing the Bonanza group of mines, but have been unable as yet to get an option from the fortunate owners.—Yuma Sentinel.

George Spaulding, a son of ex-United States Treasurer Spaulding, of San Francisco, has been appointed Inspector of United States Customs at this port. Mr. Spaulding received the highest endorsements for the position, and will fulfill the duties of the office in an efficient manner.—Yuma Sentinel.

Our recent cold snap was caused by storms in the east, the effects of which demoralized railroad traffic for a few days. Yesterday and last night was considerably warmer, however, and a pleasant spell of weather may be expected.

Dumplings with Royal Baking Powder

No dessert is more delicious, wholesome and appetizing than a well-made dumpling, filled with the fruit of the season. By the use of the Royal Baking Powder the crust is rendered light, flaky, tender and delicious. Dumplings made with it, baked in water, will be shiny and wholesome, and most delicious when hot with perfect impunity.

For a full and complete description of this famous product, see the Royal Baking Powder advertisement in this issue. It is the only baking powder that is pure and wholesome, and is the only one that is made in America.

As all receipts calling for cream of tartar, the Royal Baking Powder is the only one that is pure and wholesome, and is the only one that is made in America.

A Dig in the Ribs

If on the right side and lower part of the diaphragm, though playfully meant and delivered, is calculated to evoke profanity from a chappy whose liver is out of order. When that region is sore and congested, pokes seem fiendish. Look at a man's countenance ere you prod him under the ribs. If his skin and eyeballs have a sallow tinge, you may infer also that his tongue is furled, his breath apt to be sour, that he has pains not only beneath his ribs, but also under the right shoulderblade. Also, that his bowels are irregular and his digestion impaired. Instead of making a jocose demonstration on his ribs, recommend him to take, and steadily persist in taking, Hostetter's Stomach Bitters, the finest anti-bilious and alterative medicine extant. Incomparable is it, also, for dyspepsia, rheumatism, nervousness, kidney trouble, and fever and ague.
